Subject: Termination of All ETL Listings (Report No. 3089578-003)

Dear Dr. Carmine F. Vasile:

Your email, dated September 16, 2009 has been received and accepted. Paragraphs 6.1 through 6.3 of your Certification Agreement with Intertek specify the terms of cancellation.

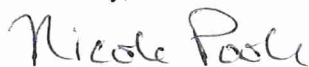

Follow-up service and the right to use the ETL Listing Marks or Labels on any of your products by Watercycles Energy Recovery Inc. at Northwest 33-18-17-2 Balgonie in SK, Canada are discontinued effective immediately. Also, any corresponding Multiple Listee model numbers that were named in the Listing Report (if applicable) will no longer be eligible to bear the ETL Listed Mark. Please advise Intertek of the last date that the ETL Mark was used at this manufacturing location, including a date code and serial number of products if available.

Since you are no longer using our services, please return all unused labels and labelling materials in your possession showing the ETL Mark to this office along with your copy of the Listing Reports and a copy of this letter. In addition, all sales literature, catalogs, packaging, or advertising materials that depict or refer to ETL Listing in any manner must be changed or destroyed immediately. These listings will be removed from the Intertek Directory of Listed Products Website.

Termination of this Agreement does not relieve either party of any existing liabilities as of the termination date. This is not limited to but includes payment of any outstanding charges due Intertek for services rendered prior to the termination date.

Thank you for utilizing our safety testing services for this product. We hope that you will consider the use of our services in the future, as the need may arise. If you have the need to re-instate your ETL product listings in the future please contact this office. Listings may be re-instated after a brief file review is completed and a re-instatement fee is paid.

Sincerely,

Nicole Poole for
